

Professional HR Roundtable  
Opening Session  
Tuesday 9.14.21 9AM-10:15AM  
VIRTUAL (ZOOM)

This Professional HR Roundtable has been created at the request of HR professionals as a forum to provide an opportunity for participants to step away from the daily grind to engage in intellectual discussions and debate with their peers. Through guided facilitation and extensive research, various case studies and articles will be shared to challenge traditional thinking, stimulate conversation, expand your thinking and test assumptions.

The discussion and debate provide a platform for your organization to remain relevant and competitive into the future as we navigate forward in these ever-evolving times where new thinking is required. Our opening session discussion will start with two simple questions:

- Where are you challenged?
- Where do you want to be challenged?

Future roundtables will be built on this platform.

These roundtables will focus on various issues regardless of the size of your business or industry and are open to individuals that handle the HR functions within their organizations. By-products of this peer forum include mutual accountability, resource sharing and meaningful peer connections.

Please join us for these interactive, virtual roundtable discussions!

Facilitated by Lynn Whitney-Turner, Business Solutions Strategist/Facilitator
