- ❖ *#Chamberstrong is a grassroots campaign to help tell the story of over 6,500 Chambers of Commerce throughout the country as we face uncertainty in our industry due to a lack of funding and not being eligible for COVID-19 relief programs including PPP (Paycheck Protection Program)*

It is a misconception that Chambers are funded through municipalities, states or the federal government.

Chambers of Commerce are independent non-for-profit 501(c)6 organizations. Because of this, we are not eligible for many COVID-19 relief programs such as PPE.

All of our funding is generated through membership fees, sponsorships, events and monies generated via grants.

Thank you for your support!
